With advances in genetic engineering , we no longer need a steady supply of stem cells for our billionaire oligarchs , thus the very raison d'etre for liberal abortion laws is now kaput . And after we abolish ROE vs WADE , more white babies will be born , obviating the need for high immigration levels . In order to MAKE AMERICA WHITE AGAIN , we must put the kibosh on legal abortions . The more babies born by incest , the more docile and malleable we become as a people . So we will legalize incest & ban abortions 'cuz that's what we need - more stupid people .
